Image: shutterstock From the Stamp Act to the Boston Tea Party, tensions between Britain and its 13 New World colonies slowly but surely ratcheted to extreme levels in the 1770s. Finally, on July 4, 1776, the Founding Fathers — after much heated debate — decided to ratify the Declaration of Independence. King George was infuriated, and the American Revolution was on. In this United States history quiz, do you really know how the world's sole superpower came to be? Sure, George Washington is often credited as the guy who won the war for the Continental Army. But did you know that the "father" of the country was actually not a great strategist? In warfare, his primary strength was tenacity and perseverance against a larger and better-equipped British force. What else do you think you know about the Revolution and the men who led it? The tumult of the Revolution had barely ended when another war began. Do you know which war it was, and how it affected America? As the republic grew and spread, it gained new territories and settled them with wild abandon. How much do recall about the frontier era and its politics? Image: Shutterstock The history of the United States officially starts 241 years ago, but it actually goes back much farther than that. In order to truly understand how this country of ours came to be where it is today, you have to be well-informed about the factors that went into its creation, and then all of the events that occurred since. Sadly, history is often poorly-taught. Many textbooks are inaccurate or biased, as James W. Loewen proved in his important text "Lies My Teacher Told Me." Others are excessively focused on the deeds of the rich and powerful, or simply on certain demographics, meaning that they diminish the role of the common man or woman and erase the contributions of people of color, as Howard Zinn's "A People's History of the United States" showed us. The downside is that this means you can pass high school history without knowing too much about the subject. The good news is you really don't need to be an expert to do well on a baseline test. This quiz will ensure we only take the most accurate questions from that high school exam and see if you're able to recall events correctly. Let's see how you do!
